THE PROBLEM

A maze between you and the fix.

Broker. Manager. Owner LLC. Sub-manager. A language barrier. And a rule nobody told you about.

THE HIDDEN RULE

Written notice first. Every day lost.

NJ law: tell the landlord in writing before anything else counts. Only 911 comes before the letter.

A mobile web wizard. One question per screen. No account. Rules in plain code decide the steps; AI only reads the photo.

AI checks the photo matches the category and pre-fills the answers.

02

WHO'S RESPONSIBLE

Parcel owner of record + the city's Non-Compliant Landlord List.

03

CITY STEP + CLOCK

WHY THE ORDER MATTERS

Each step feeds the next.

01	**THE LETTER**	Starts the legal clock. Protects against retaliation.
02	**CITY COMPLAINT**	The only way an inspection becomes a Notice of Violation.
03	**VIOLATIONS**	Count toward the city's public Non-Compliant Landlord List.
04	**COUNCIL + PRESS**	What actually moved the city in every case we found.

THE NUMBERS

WHAT ACTUALLY HAPPENS

Violations are not repairs.

Eight Newark cases, 2015 to 2026. Same pattern every time: complaint, violation, nothing, press, action.

2017

NO-HEAT CASE

Five days without heat. City complaint went nowhere. A TV call brought code enforcement the same day.

2020–26

ELEVEN80

Five years from first complaint to lawsuit. One documented mold finding produced one rent abatement.

2026

VILLA VICTORIA

Years of complaints, multiple city violations, no repairs as of March. Named on the list in April.

THE ASK

Help us put this in a tenant's hand.

01	**A HOUSING ORG**	Pilot with ten real Newark tenants this winter.
02	**CODE ENFORCEMENT**	Ten minutes to confirm the portal categories and the hotline flow.
03	**LEGAL AID**	Review the letter and every one-line "why".
